

NYX

HYPER 8-4K

8CH HYBRID DVR

Features

The NYX HYPER 8-4K is a versatile High-Definition hybrid recorder capable of supporting AHD, TVI, CVI, CVBS and IP cameras up to 5MP resolution.

The recorder natively supports 8 HD-analogue plus 8 IP channels, but can be configured to accept up to 16 cameras of any combination by converting HD-analogue inputs to IP via the user interface.

User-friendly interface and advanced search capabilities allows you to quickly find and backup event footage.

** Push notifications and remote viewing are reliant on broadband connectivity provided by 3rd party infrastructure which at times may be limited by network congestion or ISP restrictions. For mobile app connectivity, a reliable Internet service with over 1Mbps upload speed is recommended at the recorder. Some ISPs restrict or limit some activity within their router/modems or network, which may impact or deny access to the mobile app service. No guarantee or responsibility is accepted for connection problems based on 3rd party equipment or ISP performance.
